American Legion Road Improvements

Scott Boulevard to Taft Avenue

January 10, 2019

Project Overview

Iowa City is planning to reconstruct American Legion Road from Scott Boulevard to Taft Avenue.

Planned improvements include:

- New pavement with curb and gutter
- Roundabout at Scott Boulevard
- On-street bike lanes
- Pedestrian facilities
- Underground utilities

The new roadway corridor will have one travel lane in each direction, on-street bikes lanes on both sides of the roadway, a shared-use path, sidewalks, and a pedestrian underpass near Hoover Elementary School.

The project will improve safety, reduce traffic congestion, and create vehicular and pedestrian linkages.
