Bar Check Report - July, 2017

The purpose of the Bar Check Report is to track the performance of Iowa City liquor license establishments in monitoring their patrons for violations of Iowa City's ordinances on Possession of Alcohol Under the Legal Age (PAULA) and Persons Under the Legal Age in Licensed or Permitted Establishments (Under 21). Bar checks are defined by resolution as an officer-initiated check of a liquor establishment for PAULA or other alcohol related violations. This includes checks done as part of directed checks of designated liquor establishments, and checks initiated by officers as part of their routine duties. It does not include officer responses to calls for service.

The bar check ratios are calculated by dividing the number of citations issued to the patrons at that establishment during the relevant period of time by the number of bar checks performed during the same period of time. The resulting PAULA ratio holds special significance to those establishments with exception certificates, entertainment venue status, or split venues, in that they risk losing their special status if at any time their PAULA ratio exceeds .25 for the trailing 12 months. Note, while the resolution requires that bar checks and citations of the University of Iowa Department of Public Safety (DPS) be included in these statistics, the DPS ceased performing bar checks and issuing these citations to patrons in May of 2014.
